

Macharla Sri Veera Venkata Siva Sainadh

Mangalagiri, Andhra Pradesh — +91 79810 81512 — macharlasainadh2506@gmail.com
linkedin.com/in/msvvssainadh — github.com/MSVVSSAINADH

SUMMARY

Computer Science undergraduate specializing in full-stack development and cybersecurity-focused applications. Skilled in Java, Spring Boot, React.js, and MySQL with experience building secure REST APIs, scalable backend systems, and role-based applications. Focused on backend engineering and secure software development.

EDUCATION

K L University Bachelor of Technology in Computer Science and Engineering	August 2024 – May 2027 (Expected) CGPA: 8.95
Chirala Engineering College Diploma in Computer Engineering	June 2021 – May 2024 Percentage: 88.5%

SKILLS

Programming Languages: Java, Python, C++, C

Web Technologies: React, HTML5, CSS3, JavaScript, Spring Boot, REST APIs

Databases: MySQL

Tools & Platforms: Git, GitHub, Docker, Linux, VS Code

Technical Disciplines: Full-Stack Development, Backend Engineering, JWT Authentication, Problem Solving

PROFESSIONAL EXPERIENCE

Neolync Company – Sri City <i>QA Intern</i>	November 2023 – March 2024
---	----------------------------

- Performed functional and regression testing on networking devices and web applications by identifying, documenting, and validating software defects.
- Verified and validated software defects across multiple testing cycles, contributing to improved application stability and testing reliability.
- Participated in testing workflows and technical discussions to improve software reliability and quality standards.

PROJECTS

Car Rental System — React.js, Spring Boot, MySQL

- Engineered a full-stack vehicle rental platform with JWT authentication and secure REST APIs.
- Implemented RBAC, booking conflict prevention, dynamic pricing, analytics dashboards, and invoice generation modules.

Offensive AI Simulator — Java, Spring Boot

- Built a cybersecurity simulation platform for adaptive phishing and password attack scenarios.
- Created password analysis, behavioral risk assessment, and attack estimation modules using scalable backend concepts.

Hospital Management System — React.js, Spring Boot, MySQL

- Built a hospital management platform with JWT authentication and role-based access control.
- Implemented appointment scheduling, medical record management, notifications, and responsive dashboards.

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900)

ACHIEVEMENTS & CODING PROFILES

- Problem Solving:** Solved 350+ coding problems across LeetCode and CodeChef platforms.
- Competitive Programming:** LeetCode Rating: 1400
- Languages:** English (Fluent), Telugu (Native), Hindi (Intermediate), Japanese (Beginner).
